Sinopsis: If you're a fan of the GTA series then you're going to enjoy this amazing action driving adventure game. This game is completely different than all the other games that GTA has done because it is not based off of a movie or series like other GTA games. The game takes place in San Andreas and several events happen in the game that affect the player to move forward. Also, the game is being developed by Rockstar Games. Ação de poder. The game starts in the year 1996 and it is in San Andreas, which is the last mission from a previous game. The player goes to move to Los Santos to the south and then to Las Venturas to the west. After the player has gone through all the missions, there are several options to play the game. The story line is based on the character Jax and the other characters that the player can talk to during the game. This game has a range of different activities that the player can participate in such as go to a hospital, go to the police station, leave Las Venturas, and finally go to San Francisco. The player can basically do anything that he wants, but before the player can do something there are missions for the player to do. For example, when the player is going to the police station the game offers the player the opportunity to steal from a car if he wants to do so. Here the player has a limited amount of time to do so.
